

Manage your American Water Accounts with LOCiS ...

- Import American Water Readings directly into LOCiS.
- Generate Comparison Reports between LOCiS Accounts and the American Water Premise Numbers to verify all Meters are accounted for.
- Supports Multiple Meters per account.
- Supports factoring and will convert DCF, CCF and CGL American Water readings to however you bill in LOCiS.
- Automatically import American Water customer move in/out. Automatically generates final bills and populates new account information.
- Have LOCiS create the 'Shut-off' spreadsheets which American Water expects in order to turn off meters due to non-payment.

Learn how the LOCiS American Water Interface Module can help your organization.
