

Manage your Cemetery Care with the LOCiS Cemetery module...

The screenshot displays the LOCiS web interface for cemetery management. It features several sections for data entry:

- Deceased Information:** Fields for Deceased Name, Deceased Date of Birth, Deceased Date of Death, SSN, Interred date, Status, Military Service, and Cause of Death.
- Plot Information:** Fields for Cemetery, Row North/South, Plot Type, Row East/West, Vault, Reable Type, Marker, Sale Date, User Field, Sale Price, User Field, Care Type/Vent Dates, User Field, Cost of Care, User Field, Plot Latitude, Plot Longitude, and Sections.
- Owner Information:** Fields for Owner Name, Address 1/2, City, Zip Code and State, Phone/Fax, Email Address, and ID Question/Answer.
- User Defined Information:** A grid of User Field labels for custom data entry.

- Managed, cloud-based platform. Securely access your data from anywhere at any time without the hassle of on-site servers
- High-quality photos. Attach an infinite number of images/photos plus an additional *placement photo* of the printed plot or grave markers.
- Flexible Reports. Analyze productivity and payment trends by Plot Type, Cemeteries, locations and other criteria.
- Powerful fee schedules. Define service fees for each type of plot and care type.
- E-mail notifications. Quickly and easily send customer invoices and other correspondence.
- Classifications of plots (Veteran, religious affiliation, other)
