

PARTNERED WITH

ePayment eCommunication eBill Services Summary

Locis Software Solutions has partnered with Payment Service Network (PSN) to bring you the widest suite of payment, billing and communication services. PSN solutions are so simple to implement, manage and use, yet so sophisticated that you can let your customers pay any way they want—or can. No matter how they pay, all payments will be channeled into the PSN system with automatic posting to your Locis software. Add to that your ability to reduce the cost of printing and mailing bills by providing eBills and broadening your customer communications to include everything “e” and you have a solution that is unbelievably inexpensive—in fact, your ROI is nearly immediate. What’s most excellent is that you can select—a la carte—whichever solutions are best for your organization and your customers. Select from...
